PROJECTS

Tasty Kitchens (Swiggy/Zomato Clone) (https://cstastykitchens.ccbp.tech/)

Constructed an engaging Online Food Ordering Service akin to Swiggy/Zomato, enabling users to discover

top restaurants, obtain in-depth restaurant details, manage their cart, and process payments.

  • Set up unique routes for features such as login, home screen, individual restaurant data, and cart
    management using React Router components (Route, Switch, Link).
  • Incorporated a fluid horizontal scrolling capability (carousel images) on the home screen with the
    help of the React Slick library.
  • Developed visually striking and exact React components by following Figma mock-ups and using
    REST APIs to fetch popular restaurants and specific restaurant information.

Technologies used: HTML, CSS, JavaScript, React JS, Bootstrap, React Slick, Figma, client storage,
Authorization, Authentication

Nxt Trendz (ECommerce Clone - Amazon, Flipkart) (https://csnxttrendz.ccbp.tech/)

Rolled out an innovative e-commerce platform patterned after Amazon and Flipkart.

- Designed pages for Login, Products, and Product details with React Router and React components.
- Ensured user security through JWT tokens, REST API calls, and local storage.

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication

Emoji Game (https://emojigamecs.ccbp.tech/)

Developed responsive Emoji memory game where users can win it by clicking unique emoji each time till all displayed emojis are clicked. All emojis positions will be randomized after each click.

- List of Emojis is displayed by using React components, props, lists, conditional rendering, styled using CSS and randomized emojis placed using event listeners by updating react state.
- Updated different game states such as emojis list, winning state and losing state by using game state variable and conditional rendering.

Technologies used: React JS, CSS, Bootstrap

EXPERIENCE

Cognizant Technology Solutions, Hyderabad

Programmer Analyst   **[Aug 2021 – Sep 2022]**

I worked as a manual tester for a pharmacy benefit management (PBM) project for CVS client.
My responsibilities included:

- Developing test cases and executing them to ensure that the PBM system was functioning correctly.
- Collaborating with developers and project managers to identify and resolve issues and bugs in the system.
- Participating in team meetings to discuss project goals, strategies, and progress.
- I have acted as a mentor for ten of the newcomers and guided them through a mini-project that was completed successfully.
